

## 7<sup>th</sup> Grade Scheduling Template

Use the following template to map out your 7<sup>th</sup> grade schedule. You can highlight or circle the Language Arts, Math, Science, and Social Studies classes you want, but they will automatically be assigned based on Teacher Recommendation in Home Access. Write in additional electives/interventions to complete your 8 period school day. You can then use this template to help choose your classes online through Home Access when your scheduling window opens.

Things to think about when scheduling your classes:

- .5 units = 1 Semester (Half Year)    1.0 units = 2 Semesters (Year-long)
- Are you going to take Band, Choir, or Orchestra? If so, add it to both semesters
- Physical Education/Health will automatically be added to your schedule for all 7<sup>th</sup> graders
- Will you need an intervention period (Supported Studies or Panther Center)? If so, add it to both semesters
- What kind of electives are you interested in? Please see the electives on the back of this page to complete your schedule template
- If you are taking an elective at the HUB/ILC it is a two period one semester class so fill in two periods for one semester on this template
- Please see the Middle School Program of Studies for course descriptions and suggested criteria
- Core Infusion and Honors Core Infusion is a year-long double block class at the HUB that replaces your Language Arts and Science classes
- Math 7 and Accelerated Math 7 Core Infusion is a year-long double block class at the HUB that replaces your Math class and adds an elective called Innovation Studio

	<b>Semester 1</b>	<b>Semester 2</b>
1	<b>Language Arts: (select one)</b> -Language Arts 7 -Honors Language Arts 7 -Core Infusion 7 -Honors Core Infusion 7	<b>Language Arts (Same As Semester 1)</b>
