The job of stage crew requires responsibility as each child will have to self-monitor their station and will be working with expensive equipment. Each student must obtain the recommendation of two teachers or other adults in their lives (other than family) who have worked with the student and can attest to their maturity level and responsibility. Teachers/adults listed below will receive a Google form which they will submit on the student's behalf. (If using an adult other than a Hilliard City School employee, please provide their email address.) Applications will be reviewed, and an email will be sent out regarding acceptance. There is a maximum of 13 students on the crew. If your child is not accepted, they will be instructed to come and pick up their check. It is not our intention to exclude anyone, but there is a limit to the number of student jobs and backstage space.
