100-24 Superintendent recommended, Ms. Arnold moved and Mrs. Crowley seconded that the Board of Education approve the following resolution:

The Superintendent recommends Fanning Howey as the most qualified firm to serve as the design professional and to provide the master planning, design, and related construction administration services for the Capital Improvements Project – Phase I (the "Project").

Rationale:

1. The Board requires a design professional to provide the master planning, design, and related construction administration services for the Project.
2. Sections 153.65 through .71 of the Ohio Revised Code prescribes a qualifications-based selection process, which is required to be followed by public entities when design professional services are needed.
3. In accordance with the statutory process, the Superintendent publically advertised and issued a request for qualifications for design professional services and evaluated the statements of qualifications submitted by the professional design firms. The District received several statements of qualification and ranked them in accordance with the criteria outlined in the request for qualifications.
4. Following this evaluation, the District identified Fanning Howey to be the most qualified design firm to provide the required design professional services.
5. The Superintendent recommends that the Board select Fanning Howey as the firm most qualified to perform the design and related construction administration services for the Project.

The Board of Education resolves as follows:

The Board selects Fanning Howey as the firm most qualified to perform the master planning, design, and related construction administration services for the Project and authorizes the Superintendent, working with other District administrators and legal counsel, to solicit a pricing proposal from Fanning Howey and negotiate an agreement for the Project. The agreement will be brought to the Board for approval at a later date.
