CAD/3D PRINTING,
LEGO® DRONE,
ELECTRONIC MUSIC,
AI VIDEO GAME DESIGN
CAMPS IN 8 LOCATIONS
INCLUDING DUBLIN, UPPER
ARLINGTON, WORTHINGTON**

Love LEGO®? Middle Schoolers build their own LEGO® robot, take it home and put it to work using the remote control or their own code. At camp, they learn to add pieces to send it to feed the pet, grab the TV remote, or tidy their room and next summer, they come back to make it even more powerful. No experience necessary, 6:1 student-to-teacher ratio. Our founder is a 2x FIRST LEGO League World Champion coach who personally trains every instructor.

Build for ribbons. Battle for medals. LEGO Robotic challenges for trophies. Every camper leaves with prizes — and hard-earned confidence.

5-day (AM, PM or Full Day) Summer Camps at Dublin, Upper Arlington, Worthington, Gahanna, Powell, Reynoldsburg, Pickerington, Delaware & Lewis Center.
